

City and Township Tours

Our most popular tour is the Township experience, whereby our guests are provided with an authentic and true understanding of the Windhoek Township known as 'Katutura', by a local African guide who is well equipped with the knowledge about the area and its history. What makes our tour unique is its Interactive Knowledge Exchange between our guests and the inhabitants from the area. We provide you with a fully comprehensive two (-/+2) hour tour of the township including the old location as well as the informal settlements and much more. The City and Township Tour also incorporates the city centre, with its history and the most popular monuments.
